		Day 1 & 2 - 01 and 02 November 2021		
	lava Carint (			
	JavaScript (			
	•	JavaScript basics		
	•	ES2015		
	•	Variables, Scopes, Type checking and Related keywords		
	•	Functional Programming		
	•	Arrows and Callbacks		
	•	Classes		
	•	Handling Arrays and objects		
Week 1	•	Array functions		
	•	Map, Reduce and Filter		
	•	Spread and De-Structuring operator		
	•	Promise		
	•	Async Await		
	•	Generator Function and Yield		
	•	Browser Dev tools		
	•	Typescript		
	•	Typescript types, functions		
	•	Typescript classes		
Day 3 - 08 November 2021				
	•	Node JS Platform		
	•	Node and Npm		
		Node Package.json and node modules		
	•	Inbuilt modules		
	•	Node Global variables		
	Hands on:			
	•	Creating node js Application		
	•	Exploring basic libraries in node		
	•	Understanding Node ecosystem		
	Day 4 10 I			
		November 2021		
	•	November 2021  Http and Rest Services		
Wook 2	•	November 2021  Http and Rest Services  Rest services Best practices		
Week 2	•	November 2021  Http and Rest Services  Rest services Best practices  Node HTTP module		
Week 2	•	November 2021  Http and Rest Services  Rest services Best practices  Node HTTP module  Express JS		
Week 2	•	November 2021  Http and Rest Services  Rest services Best practices  Node HTTP module		
Week 2	• • • • Hands on	Http and Rest Services Rest services Best practices Node HTTP module Express JS Routing		
Week 2	• • • • Hands on	Http and Rest Services Rest services Best practices Node HTTP module Express JS Routing Creating Web application using Node JS		
Week 2	• • • • Hands on	Http and Rest Services  Rest services Best practices  Node HTTP module  Express JS  Routing  Creating Web application using Node JS  November 2021		
Week 2	• • • • • • • • • • • • • • • • • • •	Http and Rest Services Rest services Best practices Node HTTP module Express JS Routing  Creating Web application using Node JS November 2021 Data Layer		
Week 2	• • • • • • • • • • • • • • • • • • •	Http and Rest Services  Rest services Best practices  Node HTTP module  Express JS  Routing  Creating Web application using Node JS  November 2021  Data Layer  Sequelize ORM		
Week 2	Hands on  Day 5 - 13 F	Http and Rest Services  Rest services Best practices  Node HTTP module  Express JS  Routing  Creating Web application using Node JS  November 2021  Data Layer  Sequelize ORM  Creating Rest API Using Node		
Week 2	Hands on  Day 5 - 13 [	Http and Rest Services  Rest services Best practices  Node HTTP module  Express JS  Routing  Creating Web application using Node JS  November 2021  Data Layer  Sequelize ORM  Creating Rest API Using Node  Handling JSON and file Data		
Week 2	• • • • • • • • • • • • • • • • • • •	Http and Rest Services  Rest services Best practices  Node HTTP module  Express JS  Routing  Creating Web application using Node JS  November 2021  Data Layer  Sequelize ORM  Creating Rest API Using Node		
Week 2	• • • • • • • • • • • • • • • • • • •	Http and Rest Services Rest services Best practices Node HTTP module Express JS Routing  Creating Web application using Node JS  November 2021  Data Layer Sequelize ORM Creating Rest API Using Node Handling JSON and file Data Security		
Week 2	• • • • • • • • • • • • • • • • • • •	Http and Rest Services  Rest services Best practices  Node HTTP module  Express JS  Routing  Creating Web application using Node JS  November 2021  Data Layer  Sequelize ORM  Creating Rest API Using Node  Handling JSON and file Data  Security  Creating Rest Services using Node		
Week 2	• • • • • • • • • • • • • • • • • • •	Http and Rest Services  Rest services Best practices  Node HTTP module  Express JS  Routing  Creating Web application using Node JS  November 2021  Data Layer  Sequelize ORM  Creating Rest API Using Node  Handling JSON and file Data  Security  Creating Rest Services using Node  Handling Data layer using Sequelize ORM		
Week 2	• • • • • • • • • • • • • • • • • • •	Http and Rest Services  Rest services Best practices  Node HTTP module  Express JS  Routing  Creating Web application using Node JS  November 2021  Data Layer  Sequelize ORM  Creating Rest API Using Node  Handling JSON and file Data  Security  Creating Rest Services using Node		
Week 2	• • • • • • • • • • • • • • • • • • •	Http and Rest Services Rest services Best practices Node HTTP module Express JS Routing  Creating Web application using Node JS November 2021 Data Layer Sequelize ORM Creating Rest API Using Node Handling JSON and file Data Security  Creating Rest Services using Node Handling Data layer using Sequelize ORM November 2021 Task Runners in node Ecosystem		
Week 2	• • • • • • • • • • • • • • • • • • •	Http and Rest Services Rest services Best practices Node HTTP module Express JS Routing  Creating Web application using Node JS November 2021 Data Layer Sequelize ORM Creating Rest API Using Node Handling JSON and file Data Security  Creating Rest Services using Node Handling Data layer using Sequelize ORM November 2021 Task Runners in node Ecosystem Grunt Overview		
Week 2	Hands on  Day 5 - 13 [  Hands on  Day 6 - 15 [	Http and Rest Services Rest services Best practices Node HTTP module Express JS Routing  Creating Web application using Node JS November 2021  Data Layer Sequelize ORM Creating Rest API Using Node Handling JSON and file Data Security  Creating Rest Services using Node Handling Data layer using Sequelize ORM November 2021  Task Runners in node Ecosystem Grunt Overview Webpack , Babel and poly fills		
Week 2	Hands on  Day 5 - 13 [  Hands on  Day 6 - 15 [	Http and Rest Services Rest services Best practices Node HTTP module Express JS Routing  Creating Web application using Node JS November 2021  Data Layer Sequelize ORM Creating Rest API Using Node Handling JSON and file Data Security  Creating Rest Services using Node Handling Data layer using Sequelize ORM November 2021  Task Runners in node Ecosystem Grunt Overview Webpack , Babel and poly fills Node JS Testing and running Test Cases		
Week 2	Hands on  Day 5 - 13 I  Hands on  Day 6 - 15 I  O  O  O  Day 6 - 15 I  O  O  O  O  O  O  O  O  O  O  O  O  O	Http and Rest Services Rest services Best practices Node HTTP module Express JS Routing  Creating Web application using Node JS November 2021  Data Layer Sequelize ORM Creating Rest API Using Node Handling JSON and file Data Security  Creating Rest Services using Node Handling Data layer using Sequelize ORM November 2021  Task Runners in node Ecosystem Grunt Overview Webpack , Babel and poly fills		
Week 2	Hands on  Day 5 - 13 F  Hands on  Day 6 - 15 F	Http and Rest Services Rest services Best practices Node HTTP module Express JS Routing  Creating Web application using Node JS November 2021  Data Layer Sequelize ORM Creating Rest API Using Node Handling JSON and file Data Security  Creating Rest Services using Node Handling Data layer using Sequelize ORM  November 2021  Task Runners in node Ecosystem Grunt Overview Webpack , Babel and poly fills Node JS Testing and running Test Cases Setting up application Structure and Environment		
Week 2	Bay 6 - 15 I	Http and Rest Services Rest services Best practices Node HTTP module Express JS Routing  Creating Web application using Node JS November 2021 Data Layer Sequelize ORM Creating Rest API Using Node Handling JSON and file Data Security  Creating Rest Services using Node Handling Data layer using Sequelize ORM November 2021 Task Runners in node Ecosystem Grunt Overview Webpack , Babel and poly fills Node JS Testing and running Test Cases Setting up application Structure and Environment		
Week 2	Hands on  Day 5 - 13 f  Hands on  Hands on  Hands on  Webpack of	Http and Rest Services  Rest services Best practices  Node HTTP module  Express JS  Routing  Creating Web application using Node JS  November 2021  Data Layer  Sequelize ORM  Creating Rest API Using Node  Handling JSON and file Data  Security  Creating Rest Services using Node  Handling Data layer using Sequelize ORM  November 2021  Task Runners in node Ecosystem  Grunt Overview  Webpack , Babel and poly fills  Node JS Testing and running Test Cases  Setting up application Structure and Environment  Creating Build Tasks using Grunt  onfiguration for transpiling and bundling application		
Week 2	Hands on  Day 5 - 13 f  Hands on  Hands on  Hands on  Webpack of	Http and Rest Services Rest services Best practices Node HTTP module Express JS Routing  Creating Web application using Node JS November 2021 Data Layer Sequelize ORM Creating Rest API Using Node Handling JSON and file Data Security  Creating Rest Services using Node Handling Data layer using Sequelize ORM November 2021 Task Runners in node Ecosystem Grunt Overview Webpack , Babel and poly fills Node JS Testing and running Test Cases Setting up application Structure and Environment  Creating Build Tasks using Grunt onfiguration for transpiling and bundling application November 2021		
Week 2	Hands on  Day 5 - 13 f  Hands on  Hands on  Hands on  Webpack of	Http and Rest Services  Rest services Best practices  Node HTTP module  Express JS  Routing  Creating Web application using Node JS  November 2021  Data Layer  Sequelize ORM  Creating Rest API Using Node  Handling JSON and file Data  Security  Creating Rest Services using Node  Handling Data layer using Sequelize ORM  November 2021  Task Runners in node Ecosystem  Grunt Overview  Webpack , Babel and poly fills  Node JS Testing and running Test Cases  Setting up application Structure and Environment  Creating Build Tasks using Grunt  onfiguration for transpiling and bundling application		

React app using Typescript

•

	React Components	
	State vs Props	
Work 2	Functional Components	
Week 3	Debugging	
	Hands on	
	<ul> <li>Setting up the application</li> </ul>	
	Creating components	
	Playing with the Data [ State and Props]	
	Day 8 - 20 November 2021	
	Component Communication	
	Form Handling	
	Controlled vs Uncontrolled Components	
	useState Hook	
	use Effect Hook	
	Component life cycle	
	Hands on	
	Building Component Hierarchy	
	Parent Child Communication  From the allies are in a Controlled to the second and a cont	
	Form handling using Controlled vs Uncontrolled component approaches	
	Day 9 - 22 November 2021	
	Routing	
	Route Parameters	
	Child Routing	
	Dynamically loading Routes	
	Lazy Loading	
	Hands on	
	Create a Single page app with Routing  Leading Resting offstickly	
	Handling Routing effectively  Implementing lazy loading of Code	
	Day 10 - 24 November 2021	
	Consuming API using Axios	
Week 4	Context API	
	Memorization	
	Other React Hooks	
	Hands on	
	Managing state of the app using Context API	
	Consuming the server side data using Axios	
	Day 11 - 26 November 2021	
	Redux Architecture	
	<ul> <li>Reducers, Actions and Higher order components</li> </ul>	
	Hands on	
	Implementing Redux architecture	
	Implementing HOC	
	Day 12 - 29 November 2021	
	Redux Middlewares	
	Redux Saga	
	Saga Helper Functions	
	<ul> <li>Testing Components using Enzyme and Jest</li> </ul>	
	<ul> <li>Testing best practices</li> </ul>	
	Hands on	
Week 5	Adding Redux Layer to the app	
	State management using redux store	
	Testing the components	
	Day 13 - 01 December 2021	
	Redux Architecture	
	Reducers, Actions and Higher order components	
	Hands on	
	Implementing Redux architecture      Implementing LICC	
	Implementing HOC
